

Disclosure of the remuneration system of Public Bank (Hong Kong) Limited (the “Bank”) for the year 2011

Remuneration Committee

The Bank has established its Remuneration Committee with written terms of reference with effect from 1 January 2011 in compliance with the requirements of the Supervisory Policy Manual on “Guideline on a Sound Remuneration System” (the “Guideline”) issued by the Hong Kong Monetary Authority (the “HKMA”). There were five members in the Remuneration Committee and the majority of the members were Independent Non-executive Directors. The Remuneration Committee was chaired by Tan Sri Dato’ Sri Dr. Teh Hong Piow. The other members were Tan Sri Datuk Seri Utama Thong Yaw Hong, Tan Sri Dato’ Sri Tay Ah Lek, Mr. Lee Chin Guan and Mr. Quah Poh Keat.

The Remuneration Committee meets at least once a year to review and make recommendations to the board of directors (the “Board”) of the Bank on the overall remuneration policy, specific remuneration packages and compensation arrangement relating to the termination of their office or appointment of directors, Chief Executive, senior management and key personnel, and for the formulation of the remuneration policy applicable to all employees of the Bank and its subsidiaries (the “Group”).

Two meetings were held in 2011. The attendance of each member in 2011 is set out as follows:

Name of director	Number of meetings attended in 2011	Attendance rate
Tan Sri Dato’ Sri Dr. Teh Hong Piow, <i>Chairman</i>	2/2	100%
Tan Sri Datuk Seri Utama Thong Yaw Hong	2/2	100%
Tan Sri Dato’ Sri Tay Ah Lek	2/2	100%
Mr. Lee Chin Guan	2/2	100%
Mr. Quah Poh Keat	2/2	100%

At the meetings held during the year, movement of senior officials, 2011 annual salary review, allocation of discretionary bonus in compliance with the guidelines of the HKMA, the opening of new branches in the first quarter of 2011 and annual review of the remuneration system were reviewed and noted.

The remuneration of the directors, Chief Executive, senior management and key personnel is determined by reference to factors including the level of workload, responsibilities and commitments, performance and remuneration packages of the Group. No individual director or any of his associate is involved in deciding his own remuneration.

The scales of director's fees of the Bank for 2011 are outlined as follows:

	Range
Chairman/Co-Chairman	HK\$60,000 – HK\$102,500
Other directors	HK\$25,000 – HK\$92,500

No remuneration was paid to members of Remuneration Committee except the aforesaid director's fees.

Human Resources Committee

The Human Resources Committee of the Bank was formed with written terms of reference to assist the Board of the Bank in formulating and implementing policies relating to all human resources matters and to make decisions within its terms of reference to ensure the smooth implementation of human resources policies. Currently, there are five members in the Human Resources Committee. The Committee is chaired by the Chief Executive. The other members are the two Alternate Chief Executives, Senior Deputy General Manager and Head of Human Resources Department.

The Human Resources Committee meets 4 times a year or as and when needed. 5 meetings were held in 2011 to discuss on the following issues:

- 2011 annual salary review
- Minimum Wage Ordinance effected on 1 May 2011
- Enhancement of risk management on an account executive of Securities and Wealth Product Management Department
- New Competency and Ethical Behaviour Policy

Design and structure of the remuneration processes

The Board of the Bank oversees the formulation, maintenance and implementation of the Remuneration Policy.

The Remuneration Committee of the Bank reviews and recommends the remuneration packages of key senior management personnel of the Group (excluding Public Finance Limited and its subsidiaries which had established their own Remuneration Committee and adopted their own Remuneration Policy but including the branches and the representative offices located outside Hong Kong) in accordance with the authorities and responsibilities as stipulated in its terms of reference for endorsement by the Board of the Bank.

The Remuneration Committee of the Bank also works closely with the Human Resources Committee, Audit Committee and other dedicated committees and departments to (i) review if there are any material non-compliance issues in relation to internal policy and statutory

requirements and make adjustments to payments of remuneration whenever necessary, and (ii) decide upon the appraisal system which fairly measures the performance of each key personnel, and make changes to the system when necessary to meet the changing needs of the Bank.

Proposal of a remuneration review is submitted to the Chairman of the Board of the Bank by the Remuneration Committee for consideration each year.

Regular compliance monitoring is imposed to review the management and operation of the remuneration system.

Human Resources Department continues to take initiatives on all human resources matters while Human Resources Committee continues to function in accordance with its terms of reference.

Discussions and recommendations related to employees at managerial level made in the meetings of Human Resources Committee were submitted to the Human Resources Committee of Public Bank Berhad, the ultimate holding company of the Bank, and where appropriate, to the Remuneration Committee of the Bank for endorsement while discussions and decisions related to non-managerial employees made in the meetings were noted in the Board Executive Committee of the Bank.

The Remuneration of the Bank Group

The Bank adopted the Remuneration Policy in compliance with the Guideline in December 2010. The Remuneration Policy covers the Bank and its subsidiaries (including branches and representative offices located outside Hong Kong) which are subject to the HKMA's consolidated supervision except Public Finance Limited, Public Financial Limited and Public Securities Limited (the "Bank Group"), which adopt their own remuneration policy. The Remuneration Policy was initiated by the Human Resources Committee and approved by the Board. The Human Resources Committee also reviews and keeps abreast of the legal and regulatory requirements from time to time, and liaises with risk control units including risk management, financial management and compliance functions to strike a balance among sufficient staff motivation, sound remuneration packages and prudent risk management. Any findings and recommendations to be incorporated into the Remuneration Policy will be put forth to the Remuneration Committee for consideration. Having discussed and agreed upon at the Remuneration Committee, the revisions to the Remuneration Policy would be recommended to the Board for approval.

The Bank's Remuneration Policy encourages employee behavior that supports the Bank's risk tolerance, risk management framework and long-term financial soundness. The policy is established and implemented in line with the objectives, business strategies and long-term

goals of the Bank and formulated in a way that will not encourage excessive risks taking by employees but allows the Bank to attract and retain employees with relevant skills, knowledge and expertise to discharge their specific functions. The Bank has considered the risks, including market, credit, liquidity and operational risks, when implementing the remuneration measures, which are closely monitored by various management committees and working groups. The Bank considers and reviews the audit reports and various kinds of performance reports to take account of these risks in the remuneration process. Audit reports cover information on asset quality, credit risk management and operational risk management whilst performance reports state various kinds of business performance indicators such as delinquent rate, net impairment ratio, customer deposit, business growth, etc., which are useful for identification of current and future risks. The employees' performances in controlling these current and future risks are linked with their remuneration rewards. The Board will take the overall performance of the Bank Group, risk management, market trends, and other non-financial measures when deciding the performance bonus pool. This will be adjusted as and when the Bank considers appropriate. There is no change of remuneration measures over the past year.

Basically, the remuneration package consists of fixed and variable remuneration which are offered in cash. Fixed remuneration refers to basic salary, the year end double pay, and other fixed income while variable remuneration refers to discretionary bonus, sales commission and other variable income. The remuneration packages are determined by taking into consideration the evaluation of the job's responsibilities and contribution, the market pay levels for benchmark positions, and employee's performance. The level of remuneration and the proportion of variable remuneration to fixed remuneration of senior management and key personnel are linked to their level of responsibility undertaken and contribution to business performance and enhancements of efficiency and effectiveness of operations.

The remuneration of the employees within the risk control function is solely assessed in accordance with their performance in carrying out their core job responsibilities and is determined independently of the business they oversee.

The Bank uses a comprehensive performance measurement framework that incorporates both financial and non-financial performance in determining the size and allocation of variable remuneration. The financial metrics link the variable remuneration to the profits, revenue and other performance measures of the Bank as a whole, and the contribution of business units or departments and an individual employee to the Bank as well. The applicable and material risks associated with the activities of employees, the cost and quantity of capital required to support the risks taken, and the cost and quantity of liquidity risk in the conduct of business are also taken into consideration. The non-financial metrics capture the performance on qualitative aspects such as the compliance with risk management policies, adherence to legal, regulatory and ethical standards; customer satisfaction; and effectiveness and efficiency of

supporting operations. Given the importance in both financial achievements and non-financial factors, poor performance will result in reduction of or elimination to the variable remuneration. Adverse performance in non-financial factors will override outstanding financial achievement, and thus, the employee's performance can be assessed comprehensively.

Annual review of remuneration system

An annual review of the remuneration system and its operation of the Bank Group was conducted by the Remuneration Committee at the end of 2011. The review concludes that the remuneration system is to a large extent consistent with the principles set out in the Guideline except for some suggested amendments to the salary deferment as detailed below.

When the amount of variable remuneration payout exceeds a predetermined percentage of the annual fixed remuneration of the employee, a deferment period of 3 years will be imposed in order to align the incentive awards to be granted to an individual employee with the long-term value creation and the time horizons of risk. The deferred remuneration will be vested gradually over the 3-year deferment period and no faster than on a pro-rata basis.

Subject to the decision of the Remuneration Committee in accordance with the internal guidelines, the deferred remuneration will be forfeited and/or clawed back when it is later established that the data on which the performance measurement for a particular year was based is subsequently proven to have been manifestly misstated; or it is later established that the employee concerned has committed fraud or other malfeasance, or violated any legislation, code or internal control policies of the Bank Group; or there has been a significant downward restatement of the financial performance of the Bank Group; or the employment of the employee is terminated.

The award of variable remuneration to the senior management, key personnel and risk taking employees is subject to the aforesaid deferral mechanism which will be reviewed by the Remuneration Committee at least annually and subject to change when necessary.
